**January 1-15, 2006**

# STATE CLEARINGHOUSE NEWSLETTER

The State Clearinghouse distributes draft environmental documents to state agencies for review and comment, pursuant to the California Environmental Quality Act (CEQA). The State Clearinghouse also acts as the State Single Point of Contact for the review of federal grant applications and federal development projects. This Newsletter summarizes the environmental documents and federal grant applications received by the Clearinghouse during the period **January 1-15, 2006.**

## CLEARINGHOUSE CONTACTS

Please contact The State Clearinghouse if you have any questions regarding processing of environmental documents or grant applications. We may be reached at:

Telephone: (916) 445-0613  
Fax: (916) 323-3018  
e-mail: [state.clearinghouse@opr.ca.gov](mailto:state.clearinghouse@opr.ca.gov)  
website: [www.opr.ca.gov/clearinghouse/clearinghouse.shtml](http://www.opr.ca.gov/clearinghouse/clearinghouse.shtml)

Questions regarding federal grant notices should be directed to **Sheila Brown**.

Questions regarding processing of environmental documents should be directed to:

**Scott Morgan**  
Senior Planner

## CLEARINGHOUSE MAILING ADDRESS

Please do not use our street address (1400 Tenth Street, Room 212) for mailing purposes. The correct mailing address is:

STATE CLEARINGHOUSE  
P.O. BOX 3044  
SACRAMENTO, CA 95812-3044

## INFORMATION AVAILABLE ON-LINE

The 2001 CEQA Guidelines are available from the Resources Agency's website at <http://ceres.ca.gov/ceqa/>.

The State Clearinghouse Handbook, which contains all of our environmental document and grant processing procedures and forms, is available on our website.

# CEQA Documents

## Key for abbreviations of Document Type:

CON	Early Consultation Notice
EIR	Draft Environmental Impact Report
SIR	Supplemental EIR
SBE	Subsequent EIR
EIS	Draft Environmental Impact Statement
EA	Draft Environmental Assessment
JD	Joint Document (CEQA/NEPA)
FONSI	Finding of No Significant Impact
Neg Dec	Negative Declaration/Mitigated Negative Declaration
NOE	Notice of Exemption
NOD	Notice of Determination
NOP	Notice of Preparation (of an EIR)
Oth	Other type (none of the above)

## CEQA Actions

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Tuesday, January 03, 2006</u></b>			
2004052014	01-MEN-101 KP R159.2/R162.2 (PM R98.9/R100.8) Bypass Confusion Hill Rockslide Caltrans --Mendocino Bypass the Confusion Hill rockslide by constructing two bridges (over the South Fork of the Eel River) of the existing Route 101 alignment.	<b>FIN</b>	
2006011001	Merced Union High School District, Bellevue High School Merced Union High School District Merced--Merced The campus will include classrooms, administration buildings, a library, an outdoor athletic stadium, and various athletic facilities. Buildings will occupy 191,575 square feet, parking area 204,900 square feet (623 spaces) and athletic fields 1,409,000 square feet.	<b>NOP</b>	02/01/2006
2006011007	Downtown Sierra Madre Specific Plan Sierra Madre, City of Sierra Madre--Los Angeles The proposed project consists of a Specific Plan, coupled with a General Plan Amendment (GPA) (Land Use and Circulation). The main purpose of the Specific Plan is to guide future development within the Downtown while preserving the village character. The Specific Plan will allow parcels within the Plan Area to develop at higher intensities than currently allowed by the municipal code.	<b>NOP</b>	02/01/2006
2006011002	Rawlings Reservoir Replacement Project Tustin, City of Tustin--Orange Replacement of existing 3.82 MG reservoir tank with two new 3.0 MG each reservoir tanks.	<b>Neg</b>	02/01/2006
2006011003	Conjunctive Points Theater Complex, CP 2005 P2005-045 Culver City Culver City--Los Angeles The applicant, Samitaur Constructs, proposes to construct a multiple use project consisting of three live performance theatres with stages (3,100 seats) (72,046 s.f.) retail commercial (30,110 s.f.), restaurants (18,076 s.f.) and office space (101,51 s.f.) five levels of subterranean parking (1,471 spaces). The tallest portion of the structure is proposed to be 152 feet in height. The average height of the project is approximately 100 feet.	<b>Neg</b>	02/01/2006
2006011004	Tentative Tract Map 17729 Twentynine Palms, City of Twentynine Palms--San Bernardino The project is a Tentative Tract Map that will subdivide 10 total vacant acres into 40 lots for future development of single-family residences. Improvements associated with the proposed subdivision include grading, driveway accesses to each residential lot, half-width improvements for all street frontages, including curb, gutter, sidewalk, connecting pavement, and landscaping.	<b>Neg</b>	02/01/2006

	lots for single-family dwellings on 19 acres. The remaining 94.5 acres would be open space consisting of a small parking area, commemorative kiosk of the Polo Barn, two picnic tables, and hiking trails. The historic Polo Barn site would be a private residence and private horse stable, consistent with the original use of the Barn. Vehicular access would be provided from Santa's Village Road, through the Borland property (now owned by TripleNet). Emergency vehicle, pedestrian, and bicycle access would be provided through Sucinto Drive, from the residential neighborhood located to the south of the subject property. A second emergency vehicle access and private access to neighboring parcels located north of the subject property would be provided by a 20-foot wide road.		
2005021089	Taft College Facilities Capital Improvement Plan West Kern Community College District Taft--Kern The project is a Facilities Capital Improvement Plan for the demolition, construction, and remodeling of buildings and other facilities on the campus of Taft Community College at Ash and 10th in the city of Taft, California.	<b>EIR</b>	02/17/2006
2006011010	Crestridge Estates Senior Condominium Project Rancho Palos Verdes, City of Rancho Palos Verdes--Los Angeles The project would create three parcels: a 16.76 acre parcel (Area A); a 2.05 acre parcel for a new Peninsula Senior Center (Area B), and a 10.58 acre parcel for a senior condominium development and park (Area C). Area A would be retained by the City as open space, including a future trail. Area B would be donated to the Peninsula Seniors Corp. for an approximately 10,500 square foot senior center building and approximately 82 parking spaces. Area C involves an 8.91 acre senior condominium development of 100 units, a 4,529 square foot community center, and 231 parking spaces, and a 1.67 acre publicly accessible park-like area with a trail and vista point. A total of 265,000 cubic yards of grading will be conducted to accommodate the overall project.	<b>NOP</b>	02/02/2006
2006011011	Kaweah Delta Health Care District Dialysis Center Kaweah Delta Health Care District Visalia--Tulare The proposed project consists of the construction and operation of a new 11,400 sf dialysis center. The building will house a Continuous Ambulatory Peritoneal Dialysis (CAPD), home dialysis training center and support space. The dialysis center will have 15 full time employees. Hours of operation will be 6:00 am to 6:00 pm. Patient numbers will range from 12 to 13 per shift, two shifts per day, for a total of 24 to 26. The dialysis facility will include 24 chairs and two private treatment rooms for hemodialysis.	<b>Neg</b>	02/02/2006
2006012006	St. Joseph's Church Fremont, City of Fremont--Alameda The St. Joseph's Church parish proposes to demolish an existing 3,890-square foot rectory and to construct a new 850-seat church in its place; to construct a new 4,375-sf rectory (only footprint evaluated), retention of existing PHR (Carriage House), and to realign St. Joseph's Terrace (also known as Monticello Terrace), a private roadway that traverses the site. The project would require a new curb cut and driveway to provide site access and would develop 71 new onsite surface parking spaces.	<b>Neg</b>	02/02/2006

2002121027	Bradley Landfill and Recycling Center Transition Master Plan Los Angeles City Planning Department --Los Angeles The proposed project consists of two phases. Phase I of the proposed project include the following components: transitional 43 foot vertical expansion of the existing landfill; construction of the new TS/MRF; expansion of existing green and wood waste processing operation and transitional expansion of existing MRF operation. Phase II of the proposed project would involve conversion of the existing landfill operation to the proposed TS/MRF operation; closure of the existing landfill, including installation of final cover; and continued operation of the expanded green and wood waste processing facility that began in Phase I.	<b>EIR</b>	02/21/2006
2005081144	Robert M. Diemer Treatment Plant Improvements Project Metropolitan Water District of Southern California Yorba Linda--Orange The Metropolitan Water District of Southern California is proposing a number of projects at the Robert B. Diemer Water Treatment Plant to provide additional service life to the plant; ensure reliable drinking water to southern California through plant improvements and proper maintenance; improve the efficiency and effectiveness of the plant to meet increasingly stringent water quality requirements and improve the structural safety of the plant.	<b>EIR</b>	02/21/2006
2003091049	Major Subdivision Application No. 02018 - Vista Del Lago Merced County Merced--Merced Create 58 1- acre residential lots and a 71-acre remainder on a 146.73 acre parcel located south of Old Lake Road, east of Golf Road and west of Yosemite Lake Park. The development will be accessed from Old Lake Road and Golf Road.	<b>FIN</b>	
2004012109	Winters Highlands Subdivision Winters, City of Winters--Yolo Residential subdivision of 102.6 acres to create 413 single-family lots, open space lots.	<b>FIN</b>	
2006014001	Bakersfield Area National Cemetery U.S. Department of Veterans Affairs Tehachapi, Bakersfield--Kern Construction of the Bakersfield National Cemetery at Tejon Ranch is needed to fulfill VA's obligations under PL 108-109, as well as to meet the VA National Cemetery Administration's goal to provide all eligible United States veterans with reasonable access to VA burial options.	<b>NOI</b>	02/03/2006
1987032415	Spanos Park West Project Stockton, City of Stockton--San Joaquin The City of Stockton is intending to prepare a Draft Subsequent EIR7-05 for the revision of the previously-approved Spanos Park West Mixed Use Master Development Plan and Density Transfer Dev. Agreement Project south of Eight Mile Road and west of I-5.	<b>NOP</b>	02/03/2006

## CEQA Daily Log

Documents Received during the Period: 01/01/2006 - 01/15/2006

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Thursday, January 05, 2006</u></b>			
2006011014	<p>Specific Plan No. 339 Riverside County Planning Department Coachella--Riverside</p> <p>SP00339 will contain a total of 15.047 single and multi-family residential dwelling units on 2.075+/- acres, as well as within mixed-use development areas in the Welcome Center and Town Center. Residential densities are anticipated to range from 3.7 du/ac to 22.0 du/ac. This yields an overall density of 7.25 units per net acre. When the total project area, including open space is considered in the density calculation, the overall residential density is 2.35 units per gross acre. Commercial development is proposed on 232+/- acres straddling the Interstate-10 corridor, and is also included in the mixed-use components of the Town Center and Welcome Center. Commercial components will include a visitor center, general and neighborhood retail development, hotel/conference facilities, medical center, and business park. Institutional uses, including a spiritual retreat center, a community college/technical institute, administrative government facilities, and primary/secondary schools, will encompass a total of 204+/- acres.</p>	<b>NOP</b>	02/03/2006
2006012007	<p>Yuki Pear Orchard Removal Sacramento County Sacramento--Sacramento</p> <p>The project proposes the following actions to the project site:</p> <ol style="list-style-type: none"> <li>1. Remove the pear orchard and all other trees on the site and on the Airport Operating Area adjacent to the site using excavations or similar equipment. The trees would be chipped or disposed of in the most appropriate manner. It is anticipated that a wood recycling feasibility analysis will be conducted.</li> <li>2. Replace the orchard with a grass monoculture similar to the grass in the airfield, or Airport Operating Area (AOA). The grass will be maintained through periodic disking to eliminate habitat for wildlife species that regularly intrude into the nearby AOA, thereby posing a hazard to safe aircraft operations.</li> <li>3. The existing airfield perimeter fence that forms the northern and eastern sides of the property (bounded by Delta and Walnut Roads, respectively) will be removed. A new, higher airport perimeter fence compliant with Federal Aviation Administration (FAA) requirements will be installed in such a manner that the entire property will be completely enclosed within the secure airfield.</li> <li>4. Houses and other farm structures will be removed by demolition or through a joint training exercise for Aircraft Rescue and Fire Fighting (ARFF) and City of Sacramento Fire Stations 3 and 30. The decision to proceed with such a training exercise will be based on the results of an analysis of lead-based paint and asbestos containing materials in the structures.</li> </ol>	<b>NOP</b>	02/03/2006
2005121176	<p>8th and Grand Mixed-Use Project Los Angeles, City of Los Angeles, City of--Los Angeles</p> <p>Vesting Tentative Tract for a mixed-use residential/retail project with associated parking in the C2-4D zone, providing appropriately 875 condominium units, 36,349 square feet of commercial space, 1,435 parking spaces (with a residential parking ratio of 1.5 spaces per unit) and 61,162 square feet of open space/recreational amenities. The proposed project includes a total of 1,065,423 square feet of gross floor area. Site Plan Review Findings and Haul Route approval are also requested.</p>	<b>Neg</b>	02/03/2006

## CEQA Daily Log

Documents Received during the Period: 01/01/2006 - 01/15/2006

SCH Number	Title / Lead Agency / City--County / Description	Document Type	Ending Date
<b><u>Documents Received on Friday, January 06, 2006</u></b>			
2005041133	Legacy Mixed-Use project (9200 Wilshire Boulevard) Beverly Hills, City of Beverly Hills--Los Angeles The project is a six-story mixed-use development with 54 dwelling units and 14,000 sq. ft. of ground-floor commercial floor area. Both the height and use are outside of what's permissible in the subject zoning, so an overlay zone and General Plan amendment are proposed.	<b>EIR</b>	02/21/2006
2005092009	Amendment to the Sphere of Influence for the Sacramento Municipal Utility District (SMUD) and Annexation by SMUD of the Cities of West Sac, Davis and Woodland Sacramento County Local Agency Formation Commission West Sacramento, Davis, Woodland, Sacramento--Yolo The program consists of an amendment to the SMUD Sphere of Influence to include the Annexation Territory and annexing approximately 212 square miles of Yolo County into SMUD's electrical service area, including the Cities of West Sacramento, Davis (with the exception of UC Davis) and Woodland. The project also includes SMUD's acquisition and operation of existing PG&E electrical facilities serving the Annexation Territory.	<b>EIR</b>	02/21/2006
2004122113	Kaiser Permanente Santa Clara Medical Center Hospital Heliport, PLN 2004-04382 Santa Clara, City of Santa Clara--Santa Clara The proposed project is the construction and operation of a State permitted hospital heliport on the new 53-acre Kaiser Permanente Santa Clara medical Center campus located in the City of Santa Clara.. This hospital heliport, also referred to herein as a helipad, would consist of a 17-foot high platform, located on the south side of the hospital building. The helipad platform would be on the south side of the hospital building, approximately 285 feet from the south property line for the site. The helipad would be used for emergency evacuation of critically ill patients to other medical facilities to receive specialized treatment. Although it is anticipated that emergency evacuations requiring use of the helipad will occur approximately three to four times per year, the Supplemental EIR will analyze the environmental impacts of operation of the proposed hospital helipad assuming an average of fifteen (15) flights per year over a two-year period.	<b>NOP</b>	02/06/2006
2005122079	Oleander, Sundance, and Sundance 2 Development Projects Manteca, City of Manteca--San Joaquin The project consists of three separate, but geographically linked subdivisions south of the city limits. These subdivisions would consist of: single-family residential units, park land, and commercial space. Additionally, a traffic and vehicular access plan and other site improvements are proposed.	<b>NOP</b>	02/06/2006
2006011015	The Shops at Noble Creek Beaumont, City of Beaumont--Riverside 50-acre commercial shopping center and related traffic improvements. The commercial site when completed will consist of two major tenants, as well as 17 smaller outlying commercial pads and associated parking. More than 3,000 parking spaces would be placed on the property to serve the anchor facilities, restaurants, and stores. A retention basin will be excavated in the southwestern area of the project site, north of Noble Creek. Road improvements will be necessary to accommodate the traffic that will be generated by the proposed project. Oak Valley Parkway is proposed to be widened to its General Plan	<b>NOP</b>	02/06/2006

2006012017	SMUD - Solano Wind Project Phase 3 Sacramento Municipal Utility District Rio Vista--Solano The Sacramento Municipal Utility District (SMUD) is preparing a Draft EIR to analyze the potential environmental effects associated with of the Solano Wind Project Phase 3, which is proposed to build up to 76 wind turbine generators (WTGs) on approximately 3,700 acres of land in Solano County. Phase 3 is a new project to be located within the Collinsville-Montezuma Hills Wind Resource Area (WRA), with the potential to generate up to approximately 114 megawatts (MW).	<b>NOP</b>	02/06/2006
2006012012	Johnson Property Rezone, Vesting Tentative Subdivision Map, Special Development Permit, and Affordable Housing Plan Sacramento County --Sacramento 1. A Rezone of 9.54 gross acres from AG-20 to RD-7 residential and O recreation. 2. A Tentative Subdivision Map to divide the 9.5 gross acres into 40 single-family lots, one wetland preserve lot, and two landscape corridor lots. 3. A Special Development Permit to reduce the minimum 20-foot front yard setback to 12.5 feet for habitat portions of proposed homes. 4. An Affordable Housing Plan consisting of payment of fees.	<b>Neg</b>	02/06/2006
2006012013	Tentative Tract Map 05-1013, Marguerite, LLC Corning, City of Corning--Tehama To create 58 parcels for single-family residential development in an R-1 (Single-Family Residence) Zoning District.	<b>Neg</b>	02/06/2006
2006012014	A Special Permit for Past Work within a Streamside Management Area (SMA) Humboldt County Community Development Services --Humboldt A Special Permit to reduce the Dean Creek 100' Streamside Management Area (SMA) setback to 65' to accommodate past fill and vegetation removal and a future principally permitted commercial use. The 4+/- acre parcel was previously owned by Caltrans and used as a fill storage site. In an effort to prepare the site for future development, the current owner cleared minor vegetation (primarily native poison oak and exotic invasive scotch broom) within the 100' setback.	<b>Neg</b>	02/06/2006
2006012015	Clotfelter Seawall Santa Cruz, City of Santa Cruz--Santa Cruz The project consists of a Coastal Permit for construction of a blufftop retaining wall. The wall extends along the perimeter of the bluff for a distance of ~75 feet. The structure will be constructed by hand-dug piers into the blufftop, installing a below-grade concrete retaining wall, and installing tiebacks into the bedrock. The proposed retaining wall extends through the entire thickness of terrace deposits to a distance of ~8 feet below ground and is founded on sandstone bedrock. The wall will be supported by seven concrete piers that will be constructed under the retaining wall, extend in depth ~35 feet and be founded in sandstone bedrock.	<b>Neg</b>	02/06/2006

2006012019	Miners Ravine Off-Channel Detention Facility Project Placer County Flood Control And Water Conservation Roseville--Placer The District is proposing to construct a multi-objective flood control and creek restoration project that will provide regional flood control benefits through off-channel detention, as well as habitat restoration and enhancement and a recreational trail system. The purpose of the project is to provide flood damage reduction in the 101-square-mile Dry Creek watershed by increasing the off-channel storage capacity available at the project site while providing environmental and recreational enhancements in the corridor.	<b>Neg</b>	02/06/2006
2006012018	Basin Plan Amendments to the Water Quality Control Plan for the Lahontan Region - Clarification of Waste Discharge Prohibitions and Schedules of Compliance Regional Water Quality Control Board, Region 6 (Lahontan), South Lake Tahoe --Alpine, Inyo, El Dorado, Kern, Lassen, Los Angeles, Modoc, ... Amendments to Basin Plan to clarify waste discharge prohibitions do not apply to certain storm water discharges and to add a statement authorizing the Lahontan Water Board to include compliance schedules in NPDES permits.	<b>Oth</b>	02/23/2006
1998091004	SUP Revision #21 to PD-16 (Highland Park) Merced, City of Merced--Merced The site is currently designated for Regional Commercial; however, the applicant proposes to change the site to Low-Medium Density Residential (LMD) for the construction of ~138 single family residential lots, ranging in size from 2,500 to 3,500 square-feet, and improvements to the regional bike trail system. The property is ~17.3-acres in size.	<b>SIR</b>	02/21/2006
1992013033	Noble Conditional Use Permit Modification CUP-19-94M Humboldt County Planning Department Eureka--Humboldt The original project approved the following: "the annual extraction of up to 100,000 cubic yards of river-run sand and gravel aggregate products from a three-mile stretch of the Van Duzen River near its confluence with Yager Creek. The extraction method is by "bar-skimming" --- where the upper portion of exposed point bar materials is scraped horizontally to a depth no less than one foot above the elevation of the live stream. Mined materials are transported to five stockpiling sites where the await further transport to other sites for processing. No on-site processing (e.g., washing, size-sorting, and crushing) was originally permitted for on-site. Stockpiled material transits the site by truck over one of two routes --- River Bar Road, or South Fisher Road --- onto State Highway 36." The modification involves the addition of processing of materials mined on-site including crushing, screening and washing. No increase in extraction amount is proposed. The original permit was approved in 1997.	<b>NOD</b>

2005021037	<p>O'Neill Regional Park Sewer Conversion Project Orange County Rancho Santa Margarita--Orange</p> <p>The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0244-R5 pursuant to Section 1602 of the Fish and Game Code. The Agreement authorizes the applicant to proceed with those parts of the project that will impact the above described streambed and bank pursuant to Fish and Game Code section 1602. The operator proposes to alter the streambed and banks incidental to the construction of a new wastewater collection system within O'Neill Regional Park. The project will facilitate a conversion from the existing septic system to a municipal sanitary sewer system. The collection system is designed to convey and dispose of wastewater from fourteen wastewater generation facilities located throughout O'Neill Regional Park. Work includes the construction of one lift station, and the installation of approximately 11,625 linear feet of 8-inch diameter pipeline. The existing septic tank and leach field systems will be abandoned in place.</p> <p>Implementation of the proposed project will result in temporary impacts to jurisdictional streams due to trenching, installation of the gravity sewer main, and backfill within the project footprint, for a combined impact of 0.11-acres of streambed and associated riparian habitat and 135 linear-feet of "waters of the State". Additionally, approximately 0.006-acres of paved "Arizona Crossing" within Hickey Creek and Trabuco Creek will be subject to temporary trenching. The concrete will be replaced following installation of the pipeline. The sewer main crossing Trabuco Creek will be placed on the upstream side of the existing concrete creek at Trabuco Creek. The main line across Arroyo Trabuco Creek will be encased with reinforced concrete, backfilled with slurry, and covered with minimum of 25-feet of soil. A minimum cover of five-feet will be provided at the Hickey Creek crossing and the sewer main will be encased in concrete.</p>	<b>NOD</b>	
2005081058	<p>Tentative Tract Map 17044 Adelanto, City of Adelanto--San Bernardino</p> <p>A General Plan Amendment and Zone Change to reduce and relocate the C (General Commercial) zoned portion of the project site from 16.4 acres to 4.5 acres and changing the remainder 40.3 acres of the project site to R-1 (Single Family Residential). The applicant is also proposing to subdivide the entire site into a 4.5-acre lot for future commercial development and the remainder of the site into 130 single family residential lots with a minimum lot size of 7,200 square feet.</p>	<b>NOD</b>

	4,950 units; 15.0 acres of commercial uses; 4.4 acres of office/professional uses; 20.2 acres of school uses; 73.3 acres of park uses; 18.4 acres (former landfill site) to be designated as open space; and 191.9 acres to be used for drainageways, detention facilities, trails, powerline corridor and major roads.		
2004081126	Long-Term Facilities Plan and Annexations Program EIR Orange County Water District Anaheim, Buena Park, Costa Mesa, Cypress, Fountain Valley, ...--Orange The Orange County Water District (OCWD) is currently considering two separate and independent actions in connection with this environmental review. The first is the approval of the Long-Term Facilities Plan (LTFP) as a planning document, recognizing that this will not commit the District to carry out the individual projects identified in the LTFP, and that such projects will have to be separately considered and approved on an individual basis. The second is the approval of two proposed annexations. These two elements (the LTFP and the proposed annexations) are not related, although information about the District's possible long-term projects and their potential environmental consequences is useful and important in assessing the context within which the decisions on the annexations would take place.	EIR	02/22/2006
2005021054	Lytle Creek Apartments Fontana, City of Fontana--San Bernardino The proposed project would consist of 238 dwelling units on 10.4 acres of land, which equates to a density of 22.9 dwelling units per acre (du/ac). This density is consistent within the General Plan's prescribed density of 12.1-24.0 du/ac for multi-family residential development.	EIR	02/22/2006
2005051041	University Gateway Los Angeles, City of Los Angeles, City of--Los Angeles The applicant has proposed the development of an eight-story, mixed-use building to contain a 30,000-square-foot USC Bookstore, a 40,000-square-foot USC Health and Fitness Center, 6,000 square feet of neighborhood-serving retail space, a 7,000-square foot restaurant, 421 apartments designed to accommodate USC students, a dedicated bicycle parking area, and 770 parking stalls.	EIR	02/22/2006
2005032024	900 Minnesota Street Project San Francisco Planning Department San Francisco--San Francisco The proposed project would include the development of approximately 142 residential units, approximately 6,300 gross square feet (gsf) of office space, about 2,100 gsf of cafe space, and a 168-space underground parking garage on an approximately 2-acre site in San Francisco's Central Waterfront district. The project site is located on the northern half of the 900 block of Minnesota Street, between 20th and 22nd Streets, at the street addresses of 900, 910-12 Minnesota Street and 833 Indiana Street. The new school is scheduled to begin operations in fall of 2007.</p> <p>PM062615 / RENVT200500079 Los Angeles County Department of Regional Planning --Los Angeles Application for a Tentative Parcel Map to allow the construction of six commercial condominium units (total of 49,445 sf) for uses permitted under CUP87-360 including offices, manufacturing, and warehousing. The proposed development also includes 116 parking spaces, six outdoor trash and recycling enclosures, and two 28' wide driveways off of Avenue Penn. Approximately 5,478 c.y. of cut and 4,494 c.y. of fill will be required with the remaining 983 c.y. of material to be exported which will generate approximately 33 truck trips. The adjacent lot to the north has been approved for seven commercial condominium units (78,065 sf) with 112 parking spaces under PM061062. In addition, the two lots adjacent to PM061062 will be developed with two commercial buildings (total of 58,455 sf) and 121 parking spaces. Operating hours will generally be from 7:00 am to 7:00 pm weekdays with limited operations on the weekends. There will be a maximum of 99 employees working at the site with approximately 12 truck trips generated per day.</p>	<b>Neg</b>	02/07/2006
2006011022	<p>Project No. 03-368-(5) Los Angeles County Department of Regional Planning --Los Angeles An application for a Conditional Use Permit to add 47 recreational vehicle spaces at an existing 102 space travel trailer park and add 117,000 square foot section of the property for recreational vehicle storage space. The southeastern portion of the property will be converted into an area for 47 recreational vehicle spaces with amenities, including paved parking pad, electrical, water, and sewer line hook-ups, at an existing mobile recreational vehicle park. The northern portion of the property, including a portion bisected by a channelized portion of Violin Canyon Channel, will be converted in to an unpaved outdoor storage area for RVs and boats.</p>	<b>Neg</b>	02/07/2006
2006011023	<p>Well Test and Development Program Project Idyllwild Water District --Riverside Recent drought conditions in the Idyllwild area have reduce the Idyllwild Water District's well production such that the District has determined it is necessary to located additional well sites to maintain adequate public water supplies. To identify locations for new wells that have the greatest potential to produce significant quantities of water without interfering with existing wells, the District evaluated geologic literature and the mapping of sedimentary materials in the area. The District also had an electro-seismic survey, or National Water Survey (NWS), conducted at each test well site. Based on the data obtained from the field NWS and the literature review, including geologic comparisons and the known yield of existing wells, two test well sites were selected. The proposed project is the drilling of two test wells, at two separate locations, in Idyllwild to evaluate the potential water production capacity at each site. The test well locations have been selected based upon water bearing potential and permission to drill on the property only. The results of the test wells will be used in the consideration of future water production wells that would be evaluated as a discrete or separate action under CEQA.</p>	<b>Neg</b>	02/07/2006

2001092034	State Route 70 Freeway Extension and Ophir Road Interchange Caltrans Oroville--Butte The California Department of Transportation (Caltrans) and the Federal Highway Administration (FHWA) propose to upgrade a 5.6-kilometer (km) (3.6-mile) segment of State Route 70 from expressway to four-lane freeway. The proposed project would be constructed in three phases: Safety, Phase 1, and Phase 2 (Ultimate). Project construction would begin 1.6 km (1 mi.) north of Palermo Road and terminate at a point 0.5 km (0.3 mi.) south of the SR 162 junction, where the freeway currently begins. The mainline freeway would be constructed as close to the current highway alignment as possible.	<b>NOD</b>

2005102033	2005 Ozone Strategy Bay Area Air Quality Management District --San Francisco, Contra Costa, Marin, Sonoma, Solano, Napa, ... The 2005 Ozone Strategy is a comprehensive document that describes the Bay Area's strategy for compliance with State one-hour ozone standard planning requirements and transport mitigation requirements. The strategy aims to reduce emissions of ozone-forming pollutants from transportation sources, industrial facilities, commercial processes and other sources.	<b>NOD</b>	
2005102112	Sousa Minor Subdivision Humboldt County Community Development Services --Humboldt The Minor Subdivision of an ~ 1/2-acre parcel into three parcels of 7,693-10,053 sf (net) each. Proposed Parcel 3 is currently developed with a church that will be converted to residential use in the future. The parcel is almost entirely paved as most of it was used as parking for the church. Future development will remove the pavement in order to develop houses and appurtenant residential uses. The parcel is relatively flat with mild natural drainage occurring in the northwesterly direction. The area is served with community water and sewer. The parcel's southwesterly corner is located in the Alquist-Priolo Special Studies Zone; a Fault Evaluation Report has been prepared by a qualified engineering geologist and reviewed by the County's contracted geologist to ensure compliance with the State's Alquist-Priolo regulations.	<b>NOD</b>	
2005112007	Green Material Processing and Compost Facility Humboldt County Community Development Services Arcata--Humboldt A Conditional Use Permit for a greenwaste recycling and composting operation. The use will occur on 2.5-3 acres within a parcel currently used as a retail landscape materials business. The compost operation will divert +/- 18 tons of greenwaste from Eureka and McKinleyville waste transfer stations per day and is contracted with the Humboldt Waste Management Authority and the City of Arcata for such uses. The products of the operation will be high quality compost and premium castings for sale to retail and wholesale purchasers. Traffic is expected to include +/- 25 residential trips per day and 4 visits per week from a 40 yard dump truck which transfers greenwaste from the Eureka and McKinleyville transfer stations to this site. This use has been in operation at the old Blue Lake Forest Products mill site on Glendale Blvd for the past several years without complaints to the Planning or Building Divisions. All of the subject parcels under the ownership of Mad River Hardwoods are currently in the process of annexing to the City of Arcata, but the County CUP is required in the interim for GESS to operate. A 40' x 220' (31,680sf) pre-fab structure will house the compost rows to further mitigate potential odor and drainage impacts.	<b>NOD</b>

<b><u>Documents Received on Monday, January 09, 2006</u></b>			
	minimal grading was required. The parcel is served by on-site water and septic systems. A Biological Report, submitted with the application, concludes that the impacts to aquatic habitat and associated species would be negligible.		
2005112046	Wooden Minor Subdivision Humboldt County Community Development Services Eureka--Humboldt A parcel map subdivision to create two parcels and a remainder from one legal parcel. Parcel One and Parcel Two will be 7,166 and 7,177 square feet each respectively and the remainder will be approximately 1.4 acres. Because of the historic access to the site and existing development located on proposed Parcel 1, the applicant has requested an exception to the subdivision regulations to allow the parcels to be accessed via a private easement as well as Sesame Lane, a County Road. The parcel is currently 2.18 acres in size and is developed with one single family residence and accessory structures. The existing development is, and new development will be, served by community water and sewer. Specific traffic mitigation measures are included in the MND which satisfy both the City of Eureka and the County's Public Works Department. NOTE: This project includes reimbursement for traffic mitigation measures at the intersection at Hemlock and Walnut.	<b>NOD</b>	
2005112047	Havins Minor Subdivision and Special Permit Humboldt County Community Development Services Eureka--Humboldt The Minor Subdivision of an approximately 0.85 acre parcel into two (2) parcels of +- 23,112 sf and +- 14,080 sf. Each parcel is already developed with a residence and individual leachfield. As the parcel is within the Humboldt CSD service area, the residences will be required to demo the leachlines through the appropriate Environmental Health channels and hook up to community sewer services. The majority of the parcel has slopes of <10%. Subdivision requires an exception to the access road width per §325-9 of the Subdivision Regulations. The Special Permit is to allow an +/- 850 sf secondary dwelling unit on proposed Parcel 2. NOTE: This project includes reimbursement for traffic mitigation measures at the intersection at Hemlock and Walnut.	<b>NOD</b>	
2005112048	Braafladt Minor Subdivision Humboldt County Community Development Services Eureka--Humboldt A Parcel Map Subdivision to create four parcels from one legal parcel which has two Assessor parcel numbers assigned for tax purposes only. The four parcels will range in size from 11,355 sf to 2.3 acres. Because of topographical constraints, the applicant has requested an exception to the subdivision regulations to allow the parcels to be accessed via two separate private roads, Lund Lane and Osprey Lane. The parcel is currently 4.6 acres in size and is developed with two residences and a variety of outbuildings. The project includes a Special Permit for the removal of +/- 9 Redwood trees. The existing development is, and new development will be, served by community water and sewer. NOTE: This project includes reimbursement for traffic mitigation measures at the intersection at Hemlock and Walnut.	<b>NOD</b>

**Documents Received on Monday, January 09, 2006**

2006018096	<p>East Los Angeles High School No. 1 - Area 2 Toxic Substances Control, Department of Los Angeles, City of--Los Angeles</p> <p>The RAW proposes to excavate approximately 10 total cubic yards of contaminated soil to four feet below grade in five areas. The contaminants of concern are metals - lead and arsenic. Lead concentrations range from non-detect to 334 mg/kg. Arsenic concentrations range from non-detect to 14.7 mg/kg. The background arsenic concentration for this area is approximately 3.0 mg/kg.</p>	<b>NOE</b>
------------	--	------------

Impacted soil will be removed for disposal off-site. Confirmation samples will verify the DTSC lead screening value and the site-specific cleanup goal for arsenic have been achieved. The site-specific cleanup goal for arsenic was derived from a risk-based soil-screening assessment that is health protective and approved by DTSC's Human and Ecological Risk Division, for unrestricted land use.

2006018097	<p>Burlingame High School Expansion Removal Action Workplan for Removal and Disposal of Approximately 90 Cubic Yards of Lead and Polychlorinated Biphenyls Soils Toxic Substances Control, Department of Burlingame--San Mateo</p> <p>The RAW was prepared to address the removal of lead and PCB contaminated soil around the Main Building on the Burlingame High School campus. The removal action objective is to mitigate potential risk to human health and the environment through excavation and offsite disposal of the soil contaminated with lead and PCBs for unrestricted land use. The RAW proposes that approximately 90 cubic yards of soil will be excavated and transported offsite to an appropriate landfill. The excavation to prevent unauthorized entry to ensure worker safety. Access to the project site will be limited by an exclusion zone at least 20 feet from the excavation, stockpile area and excavation equipment.</p>	<b>NOE</b>
------------	--	------------

Up to two truck loads of clean fill may be brought onto the site. The clean fill will be used to back fill and restore the site. The fill will be tested according to the DTSC's "Information Advisory Clean Imported Fill Material" guidance document of October 2001.

Confirmation sampling will be conducted to verify that all soils containing lead and PCB at concentrations of the CGs or above have been properly removed, and the site is safe for occupancy as a school. Excavation will continue until the RAO has been achieved. Excavation and confirmation sampling activities will be completed in 14 days.

2005091085	<p>Courtyard Villas El Centro, City of El Centro--Imperial</p> <p>The proposed Courtyard Villas project site consists of approximately 21+ acres of land located east of Austin Road and south of Orange Avenue (extended). The proposed project includes 54 single-family residential lots, a detention basin, and public park. The proposed project tiers from the environmental analysis provided by the Western Annexation EIR (SCH# 1999101109) and also requires a Change of Zone from A, agriculture (temporary holding zone) to R-1, single-family residential and Tentative Subdivision Map.</p>	<b>SIR</b>	02/23/2006
2002031079	<p>Heritage Valley Parks Specific Plan Draft Program EIR Fillmore, City of Fillmore--Ventura</p> <p>The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2004-0173-R5 with Griffin Industries, pursuant to Section 1602 of the Fish and Game Code. Griffin Industries will alter the streambed while engaging in the various improvement projects. Griffin Industries will construct a soil cement levee along the north bank of the Santa Clara River and on Pole Creek. In addition, a 280 acre-feet basin will be constructed within Pole Creek.</p>	<b>NOD</b>	
2004011056	<p>TMDL for Sediment/Siltation and Implementation for Imperial Valley Drains Regional Water Quality Control Board, Region 8 (Santa Ana), Riverside El Centro, Calipatria--Imperial</p> <p>Regional Board Resolution No. R7-2005-0006 adopted on January 19, 2005 by the Colorado River Basin Regional Water Quality Control Board (Regional Board), amended the Water Quality Control Plan (Basin Plan) for the Colorado River Basin Region to include: (1) a Total Maximum Daily Load (TMDL) for sedimentation/siltation for the Niland 2, P, and Pumice Imperial Valley drains, (2) an implementation plan for all Imperial Valley drains that empty directly into the Salton Sea, and (3) a prohibition for discharge of silt-laden tailwater into Imperial Valley surface waters. The TMDL requires a 51% net reduction of sediment/silt into the Niland 2, P, and Pumice drains. Implementation begins three months after U.S. Environmental Protection Agency (USEPA) approves the TMDL, and requires farm landowners, renters/lessees, and operators/growers to implement management practices to reduce delivery of silt/sediment into drains that empty directly into the Salton Sea, in accordance with a time schedule consisting of four phases.</p>	<b>NOD</b>	
2004011114	<p>Friends Christian High School Yorba Linda, City of Yorba Linda--Orange</p> <p>The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0309-R5 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Mr. Richard Kempton of Friends Christian High School on the 32.5-acre parcel in the City of Yorba Linda. The project includes a total of 175,000 square feet of building space divided into 8 buildings. An athletic field (football/track and field/soccer/baseball and softball fields), tennis courts, hardcourts, swimming pool, a gymnasium and a 526-space parking lot (as well as a 100-space overflow parking lot) are also proposed project components. A 0.25-acre detention basin is proposed to capture runoff from the proposed parking lot. The City of Yorba Linda will share these facilities with the Friends Christian High School. The project site contains two unnamed drainages</p>	<b>NOD</b>

	that convey nuisance flows from the Robert Diemer Filtration Plant located north of the project site, to a storm drain adjacent to Bastanchury Road. Implementation of the proposed project will result in permanent impacts to both drainages for a total of 0.81-acres of jurisdictional streams, including 0.29 acres of riparian habitat subject to Department jurisdiction pursuant to Fish and Game Code Section 1600 et seq. All drainages have been characterized as ephemeral. The Operator shall mitigate for impacts by providing adequate funding to the Santa Ana Watershed Association in Lieu Fee Program for the purchase of 2.4 acres of credit to be applied towards the creation, restoration and/or enhancement of 2.4 acres of native riparian habitat. The money shall be used only for the creation, restoration, and/or enhancement of riparian habitat. Proof of payment of fees shall be submitted to the Department prior to commencing project activities. The 2.4 acres of in lieu fee fulfills the Department's 1.65 acre mitigation requirement.		
2004079060	Supply Water Well No. 7 Del Rey Community Services District --Fresno The drilling and installation of a new public water supply well for source capacity and distribution system needs, as well as any water quality issues.	<b>NOD</b>	
2005021025	06-FRE 41 KP0.0/16.9 (PM 0.0/10.5) Excelsior Expressway Caltrans #6 --Fresno The California Department of Transportation proposes to widen 11.4 km of SR 41 from a two-lane expressway to a four-lane expressway between Excelsior Avenue and Elkhorn Avenue in Fresno County.	<b>NOD</b>	
2006019007	Streambed Alteration Agreement 1600-2005-0646-3 / 1-05-181 MEN Forestry and Fire Protection, Department of --Mendocino The applicant proposes six activities associated with logging road crossing repairs and replacements designed to facilitate timber operation and improve watercourse and hillslope drainage patterns. The activities include five Class II watercourse crossings and large woody debris recruitment to a Class I watercourse. The California Department of Fish and Game is executing a Lake and Streambed Alteration Agreement number 1600-2005-0646-3 pursuant to Section 1602 of the Fish and Game Code to the project applicant, Mr. Chris Hayter, Campbell Timberland Management, LLC.	<b>NOD</b>	
2006018086	Streambed Alteration Agreement (1600-2005-0573-R5) Regarding the Peck Road Storm Drain Project Fish & Game #5 Industry--Los Angeles The Operator proposes to alter the streambed and banks by the removal of vegetation and sediment. The current project is to establish an annual sediment and debris removal program to maintain the 2002-authorized baseline. Phase 1 involves clearing an enclosed storm drain (storm drain No. 161) that flows into San Jose Creek Channel. This storm drain varies in size from a 48-inch diameter reinforced concrete pipe to a reinforced concrete box outlet, 24 feet in width and 7 feet in height. Approximately 1,200 linear feet of storm drain would be dewatered and debris and litter would be removed and disposed of in a landfill. Phase II involves the excavation of sediment from the San Jose Creek streambed immediately downstream of Storm Drain No. 161. Evacuation to a depth of approximately 3 feet is required to maintain the 1994 baseline gradient.	<b>NOE</b>

	Approximately 580 linear feet of streambed would be excavated with a total of 835 cubic yards (15 foot wide) of material removed. SAA# 1600-2005-0573-R5		
2006018087	Single Family Home Construction Flood Control Fish & Game #5 --Los Angeles Redirecting a 60 foot portion of an ephemeral drainage into a metal pipe to direct storm flows around a single family home construction location. Drainage will exit pipe below home site onto existing soft bottom drainage basin. Permanent impacts include 300 square feet of unvegetated drainage channel within a vacant lot. SAA# 1600-2005-0713-R5	<b>NOE</b>	
2006018088	Bridle Path Home Owners Associations Violation Restoration Fish & Game #5 Simi Valley--Ventura The Operator will repair damage to the streambed done in a violation. The Operator may grade and clear one bridle path within the open space, within the creek channel. The clearing will be no more than 12 feet wide through the mulefat. The banks may be graded to allow horse passage but the banks of the lower crossing, which will be abandoned, shall be stabilized prior to the rainy season. A second area, locally known as the Appian Way may be used for trail access during the dry season only. SAA# 1600-2004-0348-R5	<b>NOE</b>	
2006018089	Ventura County Public Works, Transportatin Division Maintenance Project for Northern Ventura County Fish & Game #5 --Ventura The Operator will alter the streambed to conduct routine maintenance, on roadway crossings during dry or minimal flow conditions. This includes: (1) Removal of debris and obstructions in channels, culverts and under bridges, including trash, rubbish, flood deposited woody debris and herbaceous vegetation which reduces capacity or impedes storm flows. (2) Control of vegetation (under 4 inches dbh) within 50 feet from the facility, that restricts normal flow under or through said facility. (3) Removal of silt, sand or sediment which reduces flows. This includes the cleaning and reshaping within 50 feet of the facility or structure, in dry channels only. (4) Minor repair to existing facilities in dry channels, including flap gates, culverts, rip-rap and water control structures. (5) Replacement of existing rock rip-rap, within the existing footprint when the stream is dry or at minimal flow. (6) Maintenance or replacement of culverts in dry streams, associated with roadways and repair of energy dissipaters, headwalls and wing walls on existing culverts. The Operator shall provide the location and area of impact for all maintenance projects on a yearly basis. This Agreement does not include the construction of new facilities or crossings. SAA# 1600-2005-0538-R5	<b>NOE</b>	
2006018090	Seminole Springs Lake Vegetation Management Fish & Game #5 --Los Angeles Conduct minor vegetation control on Seminole Springs Lake. SAA# 1600-2005-0641-R5	<b>NOE</b>

<b><u>Documents Received on Tuesday, January 10, 2006</u></b>			
2006018091	Donovan Creek Bed Grading Fish & Game #5 Buellton--Santa Barbara The Operator intends to alter the streambed by cleaning a 300 linear foot section of the creek above Santa Rosa Road. The creek fills with shale debris and plugs the culvert. A three way lawsuit/judgement has determined that the Donovan Ranch is responsible for clearing the section upstream and adjacent to the County culvert easement. The project consists of removing 650 cubic yards of sediment and shale debris, from the fence line (property line) downstream to the culvert. The banks shall remain at a 1.5:1 slope. The area will be seeded with native plant species, and cottonwoods shall be planted along the top of the banks. SAA# 1600-2005-0652-R5	NOE	
2006018092	Stevenson Ranch Debris Basin Maintenance Fish & Game #5 Santa Clarita--Los Angeles The Operator proposes to alter the streambed to conduct general maintenance activities as required by Los Angeles County Department of Public Works in the detention facility located in the residential development of Stevenson Ranch IV, as approved by SAA #5-036-98. The basin encompasses approximately 4.8 acres and does not currently contain riparian vegetation. SAA# 1600-2005-0521-R5	NOE	
2006018093	Agreement 2005-0087-R4; Poso Creek; Realignment Fish & Game #4 Bakersfield--Kern Starting at Leonard Avenue and extending 1/2 mile east, material will be pulled from just inside the creek to raise the height of the levee approximately one foot; starting from 1/2 mile east of Leonard Avenue for one mile where the road jogs to the north, the top of the levee will be moved approximately 35 feet to the south in order to continue the strait line that proceeds from Leonard Avenue; dead trees and limbs will be removed from the creek; existing habitat will be moved from the inside of the creek to the north banks where they will reestablish; revegetation of cottonwoods and willows will be planted along the entire stretch of the creek; and non-native invasive vegetation will be removed.	NOE	
2006018094	Quemetco, Inc., Emergency Permit Toxic Substances Control, Department of Industry--Los Angeles Issuance of an emergency permit for the temporary storage of 18 trailers containing spent lead acid batteries and factory scrap. The emergency permit will extend the permitted storage period 30 days, not to exceed a total of a 90-day extension. The facility is currently permitted to store trailers for a maximum of 10 days. The trailers will be parked in two designated areas currently used for staging trailers pursuant to the existing permit. The emergency permit is necessary due to the temporary shut down of recycling processes as a result of damage to the building housing the primary recycling units. The 18 trailers containing spent lead acid batteries and factory scrap will be accepted at the facility until the facility is operational and the backlog of the batteries is processed.	NOE

	improvements that would partially address future congestion and mobility needs but would require supplemental local funding such as continuation of Orange County's transportation sales tax beyond its current expiration in 2011 in addition to the traditional annual revenues from state and federal transportation funding. The proposed plan includes improvements to existing freeways, tollways, roadways, and transit (bus and rail) systems as well as an environmental program aimed at offsetting the water quality impacts of existing and proposed transportation facilities.		
2006011041	Wexier Minor Residential Subdivision; TPM 20913, Log No. 05-03-001 San Diego County Department of Planning and Land Use --San Diego The proposed project is a minor residential subdivision within the Pala Pauma Subregional Planning Area. The applicant proposes to divide 5.2 gross acres into 4 parcels each measuring from 1.1 to 1.4 net acres.	<b>MND</b>	02/10/2006
2006011043	Tentative Tract Map 32525 (TTM 04-0400) Perris, City of Perris--Riverside Tentative Tract Map 32525 is a proposal to subdivide 56.2 acres of land into 161 parcels for single-family residential development and one 1.87 acre storm water detention basin. The vacant land is characterized by scattered rock outcroppings and boulders. The proposed map has a minimum lot size of 10,000 square feet and an average lot size of 10,166 square feet. A 1.87-acre storm water detention basin is proposed. Portions of the site may be subject to jurisdictional streambed mitigation by the California Department of Fish and Game.	<b>MND</b>	02/10/2006
2006011044	Arroyo Conejo Culvert Improvement Project Ventura County Watershed Protection District Thousand Oaks--Ventura The project is composed of improvements to the Arroyo Conejo, including adding a fourth cell to the existing three cell reinforced concrete box culvert under Hillcrest Drive, and improvements to the existing concrete-lined channel upstream and downstream of Hillcrest Drive.	<b>MND</b>	02/14/2006
2006012052	Abreu Vineyard Conversion Forestry and Fire Protection, Department of --Napa This project will convert 17 acres of timberland to a vineyard and requires the approval of a Timberland Conversion Permit by the lead agency, exempting the landowner from the stocking requirements of the Forest Practice Rules following logging. Environmental impacts of the conversion and timber harvest have been identified and mitigated. A Licensed Civil Engineer has prepared an Erosion Control Plan for the Napa County.	<b>MND</b>	02/28/2006
2006012061	3909 Vineyard Avenue (PUD-49) Pleasanton, City of Pleasanton--Alameda The project consists of an approval for a rezone from RM-4,000 (Multiple Family Residential, 4,000 square foot lot/unit) to Planned Unit Development - High Density Residential (PUD-HDR) Zoning District, a Planned Unit Development Plan and an approval for a Tentative Subdivision Map to create a single lot condominium subdivision to have existing parcel. The project is proposed to have 46 parcels consisting of 45 saleable condominium units, and 1 common area parcel to be managed by Homeowner's Association.	<b>MND</b>	02/10/2006

1988022902	<p>Temecula Valley Effluent Pipeline Eastern Municipal Water District EMWD constructed this project which was placed into operation on November 16, 2004. On October 25, 2005, the Court ordered EMWD to prepare a supplemental CEQA document to address: 1) the composition of the water being exported via the pipeline and any resulting impact on water quality and wildlife in the Santa Margarita River Basin; 2) the impacts on growth within EMWD's service area; and 3) possible cumulative impacts due to the pipeline's operation in conjunction with other projects.</p>	<b>NOP</b>	02/10/2006
2006012049	<p>Bear Creek Water Right Applications 5648X07 (Partial Assignment); 5648 (Change Petition); 31523 Alpine County Planning Department --Alpine A. Application 5648X07 - An amended petition for Partial Assignment of State Filed Application 5648 to: 1) add the County of Alpine as co-applicant; 2) delete snowmaking as a purpose of use; 3) increase the direct diversion annual limit from 139+ acre feet per annum (afa) to 175 afa and reduce the storage amount from 256 afa to 220 afa (the combined direct diversion and storage amount shall not exceed 395 afa); 4) modify the season of diversion, for both direct diversion and diversion to storage, to October 1 through July 31 of the succeeding year and 5) reduce the place of use. The applicants propose to directly divert from Bear Creek and to collect water in storage at Bear Lake (Reba Dam) for municipal and recreational purposes. The water will be diverted from Bear Creek at Bear Lake and transferred to the existing treatment facility via an existing 12-inch diameter concrete encased steel pipe, with a length of 400 feet. The pipe capacity is 45 cubic feet per second (cfs). Municipal use is expected to increase from 3,618 people in 2004 to 6,156 people by 2014.</p> <p>B. Application 5648 (Change Petition) - Petition to change State-filed Application 5648 to request that: 1) the place of use be changed to include the area being served by Lake Alpine Water Company in Alpine County; 2) the purposes of use be modified to include municipal and recreational uses; and 3) approval of a point of diversion or redirection at Bear Lake within NW1/4 of SW1/4 of Section 7, T7N, R18E, MDB&amp;M;</p> <p>C. Application 31523 - Application to seek a right to collect water to storage behind the existing Reba Dam (constructed in 1965), which is a 70 foot high dam forming the 360 acre foot capacity Bear Lake on-stream reservoir. The reservoir has a surface area of 15 acres. Water will be used for municipal and recreational purposes. Application 31523 is identical to the application accompanying the Partial Assignment for State-filed Application 5648X07.</p>	<b>NOP</b>	02/10/2006

	<p>Precise Development Plan (2005-24-PD) and Vegetation Removal Permit (2005-06-VRP) to construct a total of 16, individual, light-industrial, air-space condominium units ranging in size from approximately 5,287-5,661 square feet, with a resulting total building area of approximately 90,802 square feet. Each unit will also have a fenced outdoor storage component ranging in size from 6,100-7,300 square feet. A total of 197 parking spaces are proposed. Access to the site will be taken from two driveways proposed off of Meyers Avenue. Associated public infrastructure improvements include the construction of a new 36-inch diameter storm drain, which will extend north approximately 680 linear feet, to the Barham/Meyers intersection. Mitigation is proposed for impacts associated with the removal of Non-Native Grassland (4.42 acres), Diegan Coastal Sage Scrub (0.03 acre), and Disturbed Wetlands (0.55 acre). The mitigation for the removal of the disturbed wetlands will be located offsite through the purchase of credits from an approved mitigation bank, as will the mitigation for the removal of the non-native grasslands and coastal sage scrub. A traffic signal is proposed at the Barham/Meyers intersection as mitigation for traffic impacts.</p>		
2006011052	<p>Sequoia Village (General Plan Amendment) Porterville, City of Porterville--Tulare</p> <p>The project involves a request for an amendment to the City of Porterville's General Plan land use designation from Industrial to High Density Residential and a zoning change from M-1 to R-3. The High Density Residential land use designation allows for 15 to 43 residential units per acre and must be accommodated by available infrastructure services. The R-3 zoning designation permits multiple dwellings, groups of dwellings, and accessory buildings.</p>	Neg	02/10/2006
2006011053	<p>Mathew Street General Plan Amend. Porterville, City of Porterville--Tulare</p> <p>The City of Porterville is evaluating the potential environmental impacts of approval of a General Plan Amendment and zone change of 10.7 +/- acres from High Density Residential (R-3) to Heavy Commercial (C-3). The subject site is being considered for development of a retail shopping center on the site located on the south side of Olive Avenue, between Mathew Street and Lombardi Street. Existing conditions on the site permit R-3 uses.</p>	Neg	02/10/2006

	on land uses to avoid land use conflicts resulting from noise. It should be noted that much of the material content of the proposed update is the same or similar to the current Noise Element adopted in 1978. As proposed, the update would not impose new restrictions on existing approved land uses. It contains the technical methodology used to sample noise and make projections. This information is used in the land use decision-making process.		
2006012050	Mono Way Pedestrian / Bike Facility 10-TUO-108 (PM 3.5/4.2) Caltrans #6 Sonora--Tuolumne Caltrans proposes to construct a bike lane along both sides of State Route 108 between Post Miles 3.5 and 4.2. The project will close a gap in the existing bike lane for pedestrian and non-motorized vehicles along Mono Way.	<b>Neg</b>	02/10/2006
2006012051	Fish Slough Rare Plant Restoration and Protection Project Parks and Recreation, Department of Bishop--Mono The proposed project has two compounds consisting of a trail closure/re-route and the armoring of another nearby trail on Bureau of Land Management land within the Bishop Field Office area in Mono County. The trail closure is approximately 3/4 mile and access will be barricaded on either end with large rocks. The trail re-route, which will avoid sensitive habitats, will be approximately 3/4 mile long.	<b>Neg</b>	02/10/2006

2006014002	<p>Draft Supplemental EA and Draft FONSI for the 2006 Renewal of Interim Water Service Contracts through February 29, 2008, Central Valley Project U.S. Department of the Interior</p> <p>--</p> <p>Renewal of 18 interim CVP water-service contracts between the United States and 16 CVP contractors. CVP contractors included in these draft documents are: El Dorado Irrigation District, San Juan Water District, Broadview Water District, City of Tracy, Westlands Water District Distribution District No. 1, Westlands Water District Distribution District No. 2, Pajaro Valley Water Management Agency, Santa Clara Valley Water District, County of Fresno, Hills Valley Irrigation District, Kern-Tulare Water District, Lower Tule River Irrigation District, Pixley Irrigation District, Rag Gulch Water District, Tri-Valley Water District, and the County of Tulare. The proposed action would continue the existing interim contracts for up to two years, with only minor, administrative changes to the contract provisions.</p>	<b>EA</b>	02/14/2006
2004082068	<p>Central City Two-Way Conversion Project (CIP# TL63) Sacramento, City of Sacramento--Sacramento</p> <p>The project is located in the Central City of Sacramento. The project consists of conversion of some streets from one-way operation to two-way operation with bike lanes and the conversion of some three lane one-way streets to two lanes one-way with bike lanes.</p>	<b>EIR</b>	02/27/2006
2005092020	<p>Montgomery High School Field Lights Project Santa Rosa City Schools Santa Rosa--Sonoma</p> <p>The project would add four 80-foot poles with 12 lights each to the existing football and track field. The four poles would be installed symmetrically 165 feet apart and 65 feet from the track. Construction would be completed over a three to four week period. The lights are scheduled to be in place by the fall of 2006.</p>	<b>EIR</b>	02/27/2006
2006011046	<p>La Granada Elementary School Expansion Alvord Unified School District Riverside--Riverside</p> <p>The Alvord USD proposes to acquire a 1.9-acre parcel and a 0.7 acre parcel located adjacent to the existing La Granada Elementary School to expand the existing school facilities. Expansion facilities would include a new two-story, 12 unit classroom building, new administration building, new lunch shelter and courtyard, new library building, emergency access, area for Special Day Class (SDC) portables, and parking lot expansion and reconfiguration. Expansion of the elementary school would occur on the existing school site while parking lot expansion, emergency access and future expansion for SDC portable would occur on the newly acquired parcels. New facilities would allow for conversion of the La Granada, K-5 school, which operates on multi-track year-round education (MTYRE) schedule, to a traditional school calendar.</p>	<b>MND</b>	02/14/2006

<b><u>Documents Received on Friday, January 13, 2006</u></b>			
2006011049	King Vesting Tentative Tract Map for a 148-Lot Subdivision (ER 65-05) San Luis Obispo, City of San Luis Obispo--San Luis Obispo Consideration of a vesting tentative tract map to subdivide a 99-acre (approx.) site into 148 lots with 141 single-family residential lots, 1 lot for an affordable housing project, and 6 open space lots; and environmental review.	<b>MND</b>	02/14/2006
2006011050	Cowan/French Vesting Tentative Tract Map for a 67-lot Subdivision (ER 63-05) San Luis Obispo, City of San Luis Obispo--San Luis Obispo Consideration of a vesting tentative tract map to subdivide a 15-acre (approx.) site into 67 lots with 41 residential lots, 10 business park/office lots, 15 mixed use (residential and office) lots, and 1 open space lot.	<b>MND</b>	02/14/2006
2006011051	DeBlauw / Sierra Gardens Vesting Tentative Tract Map for a 133-lot Subdivision (ER 66-05) San Luis Obispo, City of San Luis Obispo--San Luis Obispo Consideration of a vesting tentative tract map to subdivide a 30-acre (approx.) site into 133 lots, with 109 residential lots, 1 lot for an affordable housing project, 12 mixed use (residential and office) lots, 6 business park/office lots, and 5 open space lots.	<b>MND</b>	02/14/2006
2006011054	Compton Community College Performing Arts Complex Compton Community College District Compton--Los Angeles The proposed project includes the construction of a 55,600 square foot, one to three story Performing Arts Complex. The Performing Arts Complex will house a 433 seat theater, a 99 seat experimental theater and support spaces and classrooms. The complex will also include the construction of a new campus entry, new roadways, an outdoor gathering space and garden, campus wide utility improvements and an additional 230 to 280 parking spaces.	<b>MND</b>	02/14/2006
2006012062	City of Fairfield East-West Water Transmission Pipeline Project Fairfield, City of Fairfield--Solano The City of Fairfield proposes to construct the East-West Water Transmission Pipeline project (also known as Crosstown), a 36-inch potable water transmission line to connect existing water mains at the Hale Ranch Road/Cordelia Road and Cement Hill Road/Clay Bank Road intersections. The purpose of the new transmission main is to pump water from the North Bay Regional Water Plant (NBR) to Cordelia providing a redundant system for the existing waterline. Several possible route alternatives were evaluated to identify the preferred alignment. The proposed route was determined based on factors such as length, avoiding utility conflicts, right-of-way acquisition, and minimizing traffic impacts. A third of the the route parallels the new Kinder Morgan 20-inch fuel line.	<b>MND</b>	02/14/2006
2006011047	Sundance Ranch; TM 5403, AD 05-055, Log No. 04-02-048 San Diego County Department of Planning and Land Use --San Diego Major subdivision of 260.2 acres into 79 single-family lots ranging in size from 2 acres to 11.4 acres with off-site road improvements.	<b>NOP</b>	02/14/2006

<b><u>Documents Received on Friday, January 13, 2006</u></b>			
2006011048	Specific Plan No. 346 - Four Seasons at Menifee Valley, Change of Zone No. 7190, General Plan Amendment No. 755 Riverside County Transportation & Land Management Agency --Riverside General Plan Amendment No. 00755 proposes to amend the Riverside County General Plan Land Use Element as it applies to the 354.1-acre project site. Specific Plan No. 346 (Four Seasons at Menifee Valley) proposes a master-planned community of active adult (age-restricted living), traditional, single- and multi-family residential, business park and open space land uses on 354.1 acres.	<b>NOP</b>	02/14/2006
2006012055	Lincoln and Mission Residential Condominium Project San Rafael, City of San Rafael--Marin The applicant proposes to demolish the existing structures and construct 36 new residential condominiums within one five story structure. Six of the proposed units would be sold as below market rate units.	<b>NOP</b>	02/14/2006
2006012057	72 Townsend San Francisco Redevelopment Agency San Francisco--San Francisco The proposed project consists of redevelopment of an existing single-story warehouse building into an eight-story building providing about 74 dwelling units and about 78 above-grade parking spaces on two levels. The rectangular-shaped project site is on the west side of the city block bounded by Townsend, Colin P. Kelly Jr., Brannan, and Second Streets in the South Beach area of San Francisco.	<b>NOP</b>	02/14/2006
2006011045	Moore Tract Map and Conditional Use Permit ED 04-501 San Luis Obispo County Nipomo--San Luis Obispo Proposal by Ken Moore for a Tentative Tract Map and Conditional Use Permit to allow for the subdivision of a 0.50-acre parcel into three parcels and construction of three residences as a planned development. The proposed residential parcels range in size from approximately 7,029 to 7,435 square feet each. The proposed residences would be two-story, include an attached garage, and are 1,852 square feet each. The proposal includes a common area on proposed Parcel 2. The proposed project would result in the disturbance of 0.50 acre.	<b>Neg</b>	02/14/2006
2006012056	TPM 2005-0042 Yuba County --Yuba The project proposes to subdivide one 11.50 acre parcel into 2 lots (Parcel 1: 6.54 acres, Parcel 2: 4.96 acres) near the community of Browns Valley. There is a single-family residence on the proposed Parcel 1. Proposed use of Parcel 2 is also residential/agricultural. The project does not require any additional entitlements.	<b>Neg</b>	02/14/2006
2006012058	Hesketh Grading Permit G2005-51 Tuolumne County Community Development Dept. --Tuolumne Grading Permit G2005-51 to allow excavation and fill of 620+ cubic yards of material for a building site for a home on a 15,000+/- square foot parcel zoned R-1-MX (Single-Family Residential:Mobilehome Exclusion Combining) under Title 17 of the Tuolumne County Ordinance Code.	<b>Neg</b>	02/14/2006

2006012059	U.P. #05-59, Nahabedian Exploration Group, LLC (Arthur M. Smith Trust, Surface Owner) Tehama County Planning Department Red Bluff--Tehama To establish a natural gas well in a UA (Upland Agricultural) zoning district. The project site is located west of Red Bluff, approximately 1,200 feet northeast of the east end of Crook Drive, a private road, specifically 773 feet west and 1,516 feet south of the NE corner of Section 14, Township 27N, Range 4W, Mount Diablo Base and Meridian.	<b>Neg</b>	02/14/2006
2006012060	Sierra Tract Erosion Control Project, Project 1 South Lake Tahoe, City of South Lake Tahoe--El Dorado Construct erosion control improvements within an 84-acre portion of the Sierra Tract Subdivision. Erosion control improvements include soil and vegetation restoration, stormwater treatment basins, boulder parking barricades, curb and gutter, stormdrain pipe, and linear infiltration trenches. There are two pilot study treatments also proposed which include vegetated cobbles and tilled in wooden tub grindings. The planned improvements will be constructed in the City right of way and on public land. Approximately three trees (30 inches in diameter or less) will be removed. Signs will be placed throughout the project area, encouraging people not to park on unpaved road shoulders.	<b>Neg</b>	02/14/2006
2006012063	MS050029 Contra Costa County Walnut Creek--Contra Costa The applicant requests approval to rezone 2.28 acres from A-2 (General Agriculture) to R-40 (Single Family Residential) and to subdivide into 2 lots. The subject property's address is 321 North Gate Road in the Walnut Creek area.	<b>Neg</b>	02/14/2006
2006012064	De Jesus Property, SD 8981 Oakley, City of Oakley--Contra Costa The proposed project includes a rezone of the site from General Agriculture (A-2) to Planned Development District (P-1) to provide flexibility in development regulations to accommodate a development plan that is consistent with the parameters of the Oakley General Plan SM district. The SM designation allows a density of 2.3 to 3.8 dwelling units per gross acre. The proposed 71-units gives the project a density of 3.4 units per acre. Because of the flexibility described above regarding the P-1 zoning and the fact that the site is planned for residential in the General Plan, the proposed project would be consistent with the zoning and density allowed in the General Plan.	<b>Neg</b>	02/14/2006
1999082041	Modesto Urban Area General Plan Amendment-Housing Element Update Modesto, City of Modesto--Stanislaus Amendmennt to P-D (255) to allow an existing house on one large lot to be replaced with three (3) new homes following a subsequent Vesting Tentative Parcel Map, creating three lots.	<b>NOD</b>
